

UDRP and “.eu”

A particular feature of the work is its major chapter surveying and analysing panelist decisions under the Uniform Domain Name Dispute Resolution Policy (UDRP). This enables practitioners to locate other key decisions on similar issues of law or procedure, and to relate them to their own clients' position. There are further chapters providing guidance on the registration procedures and alternative dispute resolution procedure for the new European top level domain “.eu”.

Country-by-country Focus

Contains a detailed survey of the 27 most important domain name jurisdictions worldwide:
